

program guidelines:

- This program is available to Riverside Public Utilities' residential electric and water customers.
- The level of incentive on qualified units is \$75 for electric customers and \$130 for water customers. If a customer is both an electric and water RPU customer, they could receive up to \$205 for the installation of a qualified unit.
- Once the HECW is installed, mail us your application along with a legible, dated sales receipt as proof of purchase. Application must be submitted within ninety (90) days of receipt purchase date in order to qualify for rebate.
- Rebates will be applied directly to the customer's residential utility account.
- Qualified units must be installed and in operation at the customer's service address before applying for a rebate. Contact Riverside Public Utilities at (951) 826-5485 for a list of qualified products or visit bewaterwise.com.

- HECW must be ENERGY STAR® rated. The installation of the HECW must be replacing units using a higher volume of energy and water per load.
- The HECW must have a Water Factor* of 5 or less to qualify for the rebate.
- HECW's are subject to inspection for program compliance. Failure to comply may forfeit the rebate.
- Program is subject to change without prior notification. Incentives are subject to fund availability, and RPU reserves the right to determine product eligibility.
